

About Us

Pressure measurement, very simple!

HUBER INSTRUMENTE AG

HUBER INSTRUMENTE AG

Founded in 1978, we are one of today's leading companies in the field of pressure measurement device production and development.

- + Reference class Pressure Measurement Devices
- + ISO/IEC 17025:2005 accredited Laboratory

Competence

In 1988 we were the first non-government pressure calibration laboratory in Switzerland to be granted approval. Today our laboratory is accredited under ISO/IEC 17025:2005 standards and provides issuance of SCS certificates, which are recognized by all signatory countries of the EA Memorandum.

SWISSMADE

Our products are proudly manufactured in Switzerland. Instrumente is a member of the [SWISS LABEL](#) association.

Innovation

Confidence

About us

Thanks to our own in-house research and development department, we are able to meet even the most specific needs, from software to hardware.

Our goal is to be your trusted partner. We provide flexibility in meeting your specific needs and we offer fair and transparent advice!

Values
